

We Love To Write

June Social Media Captions

Captions for June 'We Love to Write' Content

For: Agent/Agency social media

Directions: Please read through these captions and make them your own. There is placeholder content in brackets and directions or prompts in italics that should NOT be posted.

Video Directions: You can post on Instagram, Facebook, Twitter, and LinkedIn.

If you are using it on Instagram, you will post it as a Reel. Use the first second of the video as the cover image. You will be able to see this portion of the video in the caption section of the post. If you want, you can also add a trending sound to the video directly within the Instagram app when you are in the edit section of posting the Reel.

Carousel Directions: A carousel is a multi-image post. You will see on the [June content landing page](#) a button that says "Social Media- Carousel", this will download as a zip file. The zip file will have 4-6 images in it that you can use to share on any platform. It is important that you post the images in order with the cover photo first, the numbered images next, and the last image as the one that says "like, follow, comment, save". That last image is optional and makes the most sense **for Instagram**.
